Gentlemen:

It gives me great pleasure on behalf of the Council and Residents of the Township of Brock to thank you for the five defibrillators which have been provided for use in the Township of Brock. These additional five defibrillators will be distributed at the Cannington Arena, Beaverton Arena and one each on the three fire department rescue trucks.

Although it is our hope that the defibrillators will never have to be used, we are appreciative of the fact that should a situation arise and they are required, that a Mikey will be in place to offer that person experiencing sudden cardiac arrest in a public place, a second chance at living.

Once again, thank you for the defibrillations you have provided to this municipality and continued success to meet The Networks goal to promote heart-healthy living and to place public access defibrillators in as many areas as possible.

Sincerely,

Larry O'Connor  
Mayor
